

People First

People First is our promise to empower people to communicate freely, interact naturally and participate actively

Connect to iPhone

2 million people can control their hearing aids with their iPhone.

144118UK / 07.14 Printed on 100% recycled paper

Now you can too.

## Control everything with your iPhone.

Download our free ConnectLine App for iPhone®. Then select input sources, adjust volume, choose programs, name programs and much more.

## Every Oticon wireless hearing device connects to your iPhone via Streamer Pro.

Streamer Pro is the heart of ConnectLine. It lets millions of Oticon wearers sync their hearing devices with their iPhone, and all sorts of other Bluetooth™-enabled devices. Streamer Pro does all this without constantly draining your batteries. And it allows you to enjoy the more natural, stereo listening experience that every wireless Oticon hearing device provides.

# ConnectLine transforms your hearing aids into wireless headsets.

Streamer Pro is your key to connectivity and preserving hearing device battery life.

Streamer Pro 1.2 App supports iPhone 5s, iPhone 5c, iPhone 5, iPhone 4s and iPhone 4.

Control everything from your iPhone.

ConnectLine works with every Oticon wireless hearing device.

## Connect with a world of entertainment, information and ideas.

Now your phone calls, favorite music, mobile and computer video chats, podcasts, TV, live performances and presentations can be streamed into your hearing devices via the Streamer Pro. And it can be controlled with your iPhone with our free ConnectLine App for iPhone. ConnectLine is designed to connect millions of hearing device wearers with the world of entertainment, information and ideas.

Best of all, ConnectLine works with every style of Oticon wireless hearing device at every price point. This includes all of our custom In-the-Ear styles as well as our Receiver-In-The-Ear models. So whether you're already an Oticon hearing device wearer, or purchasing for the first time, ConnectLine can connect you with ease. **Ask your hearing care professional to show you how.**
